IS YOUR RELATIONSHIP HEALTHY?

- ❖ Are you able to communicate openly and without fear of judgement?
- ❖ Are you able to have your own hobbies and interests outside of your relationship?
- ❖ Can you spend time alone with family and friends without jealousy?
- ❖ Can you make your own decisions?

Not all abuse leaves bruises.

October is National Domestic Violence Awareness month. If you answered no to any of these questions and want to talk, call your SSW, the National Hotline at 1 (800) 799-7233 or text "START" to 88788.

FENTANYL IS SPOOKY!

Yeah, yeah. That was corny and you are too smart to use fentanyl. We get it. But Fentanyl is being added to street drugs to stretch supply and increase profits. Its cheap to make and highly addictive.

If you or anyone you know uses drugs not purchased with a prescription, be aware of the risks. Tell your friends:

- ⊗ Fentanyl is 50X more potent than heroin and 100X more potent than morphine.
- ⊗ 66% of overdose deaths are linked to Fentanyl or other synthetic opioids.
- ⊗ Fentanyl is killing more people than COVID-19, car accidents, cancer and suicide.
- ⊗ 2mg of Fentanyl can result in a fatal overdose.

HALLOWEEN SAFETY

If you trick or treat, take a flashlight so cars can see you. Check all your candy before consumption. Throw out anything that is opened or appears tampered with. Be smart, be safe! *Happy Halloween* from CalLearn.
